

TECHNICAL DATA SHEET

Product: Water Repellent Glassine Paper Bag

1. General Description The Water Repellent Glassine Paper Bag is a high-performance inner packaging solution. It is made from smooth, translucent glassine paper treated with a biodegradable water-repellent coating. This Water Repellent Glassine Paper Bag is designed to replace traditional plastic polybags in apparel and electronics industries.

2. Specifications

Material: 100% Pure Glassine Paper (FSC Certified)

Weight: 40gsm - 60gsm (Customizable)

Appearance: Semi-translucent, smooth, gloss finish

Sustainability: 100% Plastic-free, fully recyclable

3. Technical Parameters

Water Repellency: Grade 3-4 (Effective moisture barrier)

Grease Resistance: High (Inherently greaseproof)

Tensile Strength: High (Optimized for inner packaging)

Printing: Up to 6-color water-based ink printing
